

CentoPortal®

YOUR SOLUTION FOR SMARTER DIAGNOSTICS

From test ordering to report sharing:

CentoPortal® is a safe and simple yet high quality solution for your genetic diagnostics workflow.

CentoPortal® allows you to:

- Browse CENTOGENE's complete portfolio and order your test in a few easy steps
- Provide the most important clinical information in a structured way
- Sign the patient consent online
- Obtain an overview of your patients and the analyses you have ordered
- Check your sample status
- Download your patient's medical report and send it to additional report recipients with the highest data protection
