<p><b>Patient Monitoring</b> (Biomarker follow up)</p>  <p>CENTOGENE's highly-sensitive and specific biomarkers supports easy monitoring and management of patients.</p>	<p><b>Whole Genome &amp; Whole Exome Sequencing</b></p>  <p>CentoXome® and CentoGenome® are fast and cost effective one-step sequencing solutions with high diagnostic rate.</p>	<p><b>Clinical studies</b></p>  <p>Centogene services in clinical studies span the full spectrum of customized solutions for orphan drug development</p>

2. Enter your unique 'username' and 'password'

### 3. Go to 'My orders'

#### GENETIC TESTING

**Patient Cohort Screening for Rare Diseases**  
(e.g., Fabry disease)

Smart solutions for patient screening with efficient, reliable and cost-effective results.

**Disease Specific Testing**

Reliable comprehensive range of tests including NGS panels, single gene analyses and array CGH to cover your needs.

**Reproductive and Prenatal testing**

Accurate testing for infertility, preconception carrier screening and non-invasive prenatal testing during pregnancy.

**Patient Monitoring (Biomarker follow up)**

CENTOGENE's highly-sensitive and specific biomarkers supports easy monitoring and management of patients.

**Whole Genome & Whole Exome Sequencing**

CentoXome® and CentoGenome® are fast and cost effective one-step sequencing solutions with high diagnostic rate.

**Clinical studies**

Centogene services in clinical studies span the full spectrum of customized solutions for orphan drug development

### 4. When the reports are ready, you will see 'Final' under the column 'Reports'
